

Sustainability Packaging Roadmap

2026-2028

Sustainability & Packaging · Issue date 2026-01-20

Goal

Eliminate virgin plastic from primary packaging by 2028 and reach 100% recyclable secondary packaging by 2027. Year-1 target: 30% recycled content in Skincare bottles; 60% by year 2.

Materials transition

Category	Current	2026 target	2028 target
Skincare bottles	10% PCR	30% PCR	100% PCR / glass
Carton outer	FSC certified	FSC + reduced ink	Compostable variants
Inserts	Plastic	Molded pulp	Eliminated

Suppliers

Provence Bottles (Skincare primary glass) and TruPack Cartons (secondary outer) have signed cooperative roadmaps. Selected vendor onboarding for compostable inserts is in progress.

Reporting

Annual progress published in the LuxeBeauty Sustainability Report. Internal quarterly review with the Sustainability Steering Committee.
